To Whom It May Concern:

I highly recommend Matilsky Construction, LLC for all your construction needs.

We recently utilized Matilsky Construction for a large, complicated project with a short timeframe in Union, NJ. Steve Matilsky proved to be very responsive and creative. We had tight deadlines and Steve was able to create an aggressive plan to meet these deadlines. Comments received from Merrill's on-site personnel include:

- Very easy to contact and always responsive;
- Hired very competent sub contractors who were highly skilled and respectful of the facility and the staff;
- Flexibility was key; we threw a number of curveballs and he found a way to grant our requests;
- Paperwork was organized and detailed;
- He was an excellent liaison with architects, engineers and sub contractors.

Our project was completed on time, on budget and communication was top notch!

Matilsky Construction proved to be a service provider of the highest quality.

Sincerely,
